Accessibility Statement

Effective Date: October 21, 2024

At ECHO Compliance Professionals LLC ("we," "us," or "our"), we are committed to ensuring digital accessibility for all our clients and visitors, including people with disabilities. We strive to provide an accessible and user-friendly experience for everyone by making our services and website as inclusive as possible. Our goal is to continuously improve the accessibility of our website and services in accordance with applicable accessibility standards and best practices.

Accessibility Standards

We aim to meet or exceed the requirements of the Web Content Accessibility Guidelines (WCAG) 2.1, which are internationally recognized guidelines for improving web accessibility. These guidelines define how to make web content more accessible for people with disabilities, including those with visual, auditory, motor, and cognitive impairments.

Measures We Have Taken

To promote accessibility, we have taken the following measures:

- **Text Alternatives:** We provide alternative text for non-text content, such as images and graphics, to ensure that users relying on screen readers can understand and interact with all parts of our website.
- **Keyboard Navigation:** Our website is designed to be navigable using only a keyboard, making it accessible for individuals who cannot use a mouse.
- **Color Contrast:** We ensure sufficient contrast between text and background colors to improve readability for users with visual impairments.
- **Consistent Structure:** Our website is structured in a logical and consistent manner to make it easier for screen readers to process and interpret.
- **Resizable Text:** Users can resize text without loss of content or functionality to enhance readability.
- **Captions and Transcripts:** We provide captions for videos and transcripts for audio content where applicable.

Third-Party Content

While we strive to ensure that all content on our website is accessible, there may be instances where third-party content, such as embedded videos or links to external websites, is not fully accessible. We are not responsible for the accessibility of content provided by third parties but are happy to assist users in accessing such content whenever possible.

Compatibility

Our website is designed to be compatible with common web browsers and assistive technologies. We recommend using the latest versions of these tools to ensure the best user experience.
